GCERTI ITALY | ASSESSMENT & CERTIFICATION S.R.L. | BENEFIT COMPANY

Certification, Inspection and Training Body

It is a Certification Body specialized in Management, Inspection and Independent Evaluation Systems Certification services, which operates throughout the national territory thanks to its offices in Piedmont, Friuli Venezia Giulia, Emilia Romagna and Campania.

Furthermore, **GCERTI Italy** is a Benefit Company, i.e. a hybrid company with a dual purpose because in addition to the aim of dividing profits, it pursues one or more purposes of common benefit and operates in a responsible, sustainable and transparent way towards people, the environment and stakeholders, committing itself to transparently evaluating its impact. Benefit companies place people, relationships and territories as values at the centre, responding to social needs and helping to govern this transition in a virtuous way.

GCERTI Italy Assessment & Certification has been engaged for years in projects closely linked to sustainability, thus aiming to be a socially responsible organization that carefully manages economic, social and environmental risks and impacts, basing its sustainability strategy on ethical principles, customer centrality, innovation, environmental commitment and employee value.

In line with the company mission *"The higher you fly, the further you see"*, **GCERTI Italy** has started with **ACCREDIA** the accreditation procedure for the **Get It Fair ESG** certification in order to provide stakeholders with credible and reliable information on the level of exposure to risks relating to Environment, Social, Governance which may have future impacts on the organization and its stakeholders.

CERTIFICATIONS BIM SKILLS

CERTIFICATIONS

BIM Manager

Manages and periodically updates the organizational guidelines on information management for all disciplines, coordinating the activities of other operational figures. It guarantees the coordination of the project, managing the roles and phases envisaged, and identifies interferences by reassigning their correction within the project team.

Develops the information specifications for the client and the BIM Execution Plan (information management plan) for internal use of the company. Verifies the operational application and compliance with the standards established with the BIM coordinators and takes care of the modification of the information contents.

CERTIFICATIONS

BIM Specialist

It deals with the use of the software for the creation of a BIM project and the development of the 3D model. Develops and possibly modifies the graphic models and objects related to them and their libraries during construction, performs data extraction. It also carries out technical analysis using company documentation for the production of documents and models (standards and procedures).
The figure of the BIM Specialist is divided into the following disciplines:

1. Architecture: discipline relating to the design, construction and management of building works in the residential, cultural and administrative, sports and entertainment, production and commercial and territorial planning fields.

2. Structures: discipline relating to the design and construction of structures of civil, industrial buildings or intended for infrastructural works.

3. Systems: discipline relating to the design and installation of mechanical, electrical and hydraulic systems (called MEP).

4. Infrastructure: discipline relating to the design, construction and management of infrastructural works such as, for example, roads, railways, river barrier works, technological networks, port works and all those works that have a strong interconnection with the territory in which they are located.

CERTIFICAZIONE DELLE COMPETENZE

ESPERTO IN BUILDING INFORMATION MODELING

UNI 11337-7:2018 / PDR UNI 78:2020

CERTIFICATIONS

BIM Coordinator

Coordinates the BIM Specialists involved in the project to guarantee the application of the standards and processes through the use of software necessary for the coordination of the drafting, control and management activities of the BIM project. It also deals with the issues of sharing and aggregating information content. Reports every detail of the project development to the BIM Manager, facilitating the information process.

CERTIFICATIONS

CDE Manager

It manages the environment in which the exchange of information takes place between the different actors participating in a project (CDE). Controls the interoperable process of information, the correctness and timeliness of the operational flow. Relate the contents of the models with other data present in the platform and apply data protection techniques

SERVICE *of* PROFESSIONAL TRAINING

GCERTI ITALY | Assessment & Certification | Benefit Society, also deploys its professionalism and experience in the training sector, organizing and providing specialist courses.

The ability of our teachers to translate their knowledge and all the know-how acquired in the practice of their profession in a concise and clear manner represents the added value of our training proposal.

Trainers are selected based on their effectiveness in transmitting their experience to the participant, in order to maximize the value perceived by the latter.

The plus of traditional training courses is the alternation with exercises (single and group exercises), this mix, combined with the exchange of know-how provided by our qualified teachers, creates an added value generator of knowledge in line with our company mission.

We provide training services to organizations aimed at obtaining skills in the main areas Standards including:

IAF SECTORS IN WHICH WE OPERATE

- AGRICULTURE, FORESTRY AND FISHING
- MINING AND QUARRIES
- FOOD AND BEVERAGE INDUSTRIES AND TOBACCO
- FABRICS AND TEXTILE PRODUCTS
- LEATHER AND LEATHER PRODUCTS
- WOOD AND WOOD PRODUCTS
- PULP FOR PAPER, PAPER AND PAPER PRODUCTS
- PUBLISHING HOUSES
- PRINTERS
- COKE MANUFACTURING AND REFINED PETROLEUM PRODUCTS
- NUCLEAR ENERGY
- BASIC CHEMISTRY, CHEMICALS AND FIBRES
- PHARMACEUTICAL PRODUCTS
- RUBBER AND PLASTIC PRODUCTS
- NON-METALLIC MINERAL PRODUCTS
- LIME, GYPSUM, CONCRETE, CEMENT AND RELATED PRODUCTS
- METALS AND METAL PRODUCTS
- MACHINES AND EQUIPMENT
- PRODUCTION OF MANUFACTURED GOODS (NOT ELSEWHERE CLASSIFIED)
- FINANCIAL INTERMEDIATION, REAL ESTATE ACTIVITIES, RENTAL
- ELECTRICAL AND OPTICAL EQUIPMENT
- OTHER MEANS OF TRANSPORT
- NAVAL CONSTRUCTION
- RECYCLING
